MTS JOINS ROCKWELL AUTOMATION'S ENCOMPASS PROGRAM

CARY, N.C. (August 20, 2007) — MTS Systems Corp., Sensors Division announced that it is now a member of the Rockwell Automation Encompass Program for the Americas regions. The Encompass Program is a product referencing program designed to identify, qualify and jointly market third-party manufactured products that complement the breadth of world-class products developed by Rockwell Automation. Rockwell Automation will be referencing MTS' Temposonics® linear-position sensors and Level Plus® liquid-level sensors.

“MTS is proud to be a member of the Encompass Program as it will further assist our industrial customers in recognizing quality equipment and applications that make use of our magnetostrictive sensors,” said Lee Aiken, product marketing manager, MTS Sensors.

The Encompass program, according to the Rockwell Automation Web site, “creates a path for critical information exchange and improved solutions in the marketplace by linking technical and commercial resources of Rockwell Automaton and the Encompass partner.”

MTS JOINS ROCKWELL AUTOMATION ENCOMPASS PROGRAM, PAGE 2

Products referenced in the program must be provided by reputable, sound companies committed to product and service quality and must enhance and extend the Rockwell Automation solution through built-in connectivity to a Rockwell Automation architecture or as a critical component to the solution.

For more information about the Encompass program, visit www.rockwellautomation.com/encompass.

For more information on the MTS Sensors Group and their solutions, please contact: Lee Aiken, MTS Sensors Division, 3001 Sheldon Drive, Cary, NC 27513. Phone: (919) 677-2332. E-mail: sensorsinfo@mts.com or visit <http://www.mtssensors.com>.

Rockwell Automation, Inc. (NYSE: ROK) is a leading global provider of industrial automation power, control and information solutions that help manufacturers achieve a competitive advantage in their businesses. The company brings together leading global brands in industrial automation, which includes Allen-Bradley controls and services and Rockwell Software factory management software. Headquartered in Milwaukee, Wis., the company employs about 19,000 people serving customers in more than 80 countries.

MTS Sensors, a division of MTS Systems Corp., is the global leader in the development and production of magnetostrictive linear-position and liquid-level sensors. Based on MTS' patented Temposonics[®] technology, the Sensors Division is continually developing new ways to apply magnetostrictive sensing technology to solve critical applications in a variety of markets worldwide. With facilities in the U.S., Germany and Japan, MTS Sensors Division is an ISO 9001 certified supplier committed to providing innovative sensing solutions that deliver customers with reliable, cost effective sensing devices.
